Title : Mirror symmetry for complex projective space and optimal towers of algebraic curves

Speaker : Sergey Galkin, PUC Rio de Janeiro and HSE Moscow

Date : Monday, March 2, 2020

Time : 4:00 pm

Venue : Emmy Noether Seminar Hall, ICTS Campus, Bangalore

Abstract : I will speak about mirror symmetry for projective threespace, and how with Sergey Rybakov we used it to construct an optimal tower of algebraic curves over a field of 9 elements (arXiv:1910.14379).
