

ICTS Seminar Series

- Title : Superstring field theory and its applications
- Speaker : Ashoke Sen, Harish-Chandra Research Institute, Allahabad
- Date : October 19, 20 & 21, 2016
- Time : 3:00 – 5:00 pm
- Venue : Madhava Lecture Hall, ICTS Campus, Bangalore
- Abstract : In these lectures I shall review the construction of superstring field theory. I shall also describe its various applications like addressing infrared divergence problems in superstring perturbation theory and unitarity of the S-matrix of string theory.
