

Chasing a Conjecture: Chandrashekhar Khare in conversation with Rajesh Gopakumar

Chasing a Conjecture: Inside the Mind of a Mathematician is a personal and insightful memoir that captures the intellectual and emotional journey behind mathematical discovery. Through the story of pursuing deep problems in number theory, Prof. Chandrashekhar Khare reflects on mentorship, collaboration, setbacks and breakthroughs, offering a rare look into how a mathematician thinks and what it takes to arrive at a profound result. It is a celebration of curiosity, perseverance and the human drive to understand.
