

ICTS String Seminar

Title : Quantum Extremal Islands Made Easy

Speaker : Rob Myers, Perimeter Institute for Theoretical Physics, Canada

Date : Wednesday, 25th November 2020

Time : 19:30 am (IST)

Abstract : We illustrate the appearance of quantum extremal islands in holographic setups in higher dimensions. We emphasize the close parallel with the behaviour of holographic entanglement entropy in more familiar settings

Online Seminar : Please register at docs.google.com/forms/d/e/1FAIpQLSf0jLgoqiOgDnxbEBGiuIWiOmh9WX8caH-pr13qDBZOO91img/viewform
