

Upcoming meeting: Hydrodynamics, Fluctuations, and Noise in quantum and classical systems

Two weeks: 1st December - 12th December' 2025

Aims to bring together three communities—classical, quantum statistical mechanics, and string theory—working on questions related to the hydrodynamics of many-body systems. A strong emphasis will be on pedagogical lectures.

Organisers: Gautam Mandal (TIFR)

Jacopo de Nardis (Cergy)

Tridib Sadhu (TIFR)
