

### ICTS String Seminar

- Title** : From Topological to Non-Topological Conformal Defects
- Speaker** : Yifan Wang(New York University, USA )
- Date** : Thursday, 21 November 2024
- Time** : 6:00 PM (IST)
- Abstract** : In conformal field theory, topological defects are special cases of the much larger zoo of conformal defects. I will discuss features of non-topological conformal defects that mimic and generalize those of topological defects. I will also describe constraints on the defect renormalization group flows, some of which come from the interplay with topological defects.
- Venue** : Online
